

THINKING DEEPLY ABOUT
ORIGINS AND DESTINY

Has Science Rediscovered a Creator?

Unexpected Evidence of the Last Fifty Years Reveals Origin and Destiny.

For the past two seasons the Socrates@SaddleBrooke Club has been researching this question in many different fields of science from astronomy to human consciousness. After evaluating the cumulative scientific evidence, the best explanation seems to point to a Creator. **Of course, not everyone agrees.**

The evidence has been presented at the monthly Socrates Forums and is available in some 25 videocasts on the website www.socratesatsaddlebrooke.club.

In **Season Three** we will meet to critically examine this evidence and invite dissenting views in a provocative new format of interview, Q&A, and audience participation.

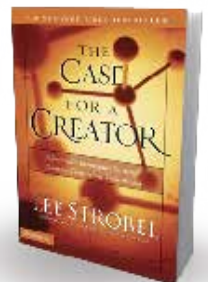

Come join the conversation - whether you're a believer or non-believer. Learn of the latest scientific discoveries and draw your own conclusions. Challenge your worldview and that of the culture.

Check the website or use the QR code for current dates and topics of Season Three Forums and register for free access to the videocasts.

**Season Three begins October 18, 2023
4:00-5:30 pm in the East Ballroom of the
MountainView Bar & Grill
38759 S. MountainView Blvd.
SaddleBrooke, AZ 85739**

**Bring a friend to a
Socrates@Saddlebrooke Club
Meeting and receive a Free Book
"The Case for a Creator"
